Keen on quickly taking on responsibilities in a startup?

**WeDaVinci**

COLLABORATE  
TO INNOVATE.

THE COLLABORATION PLATFORM  
FOR YOUR INNOVATION PROJECTS

**WeDaVinci** is a web-based, NLP-powered collaboration software. We give people a platform for their ideas, to showcase their expertise and motivate them to collaborate on innovative endeavors.

WeDaVinci is supported by EXIST and has been part of the LMU Entrepreneurship Center. After several successful projects, e.g. with the UN World Food Programme Innovation Accelerator on “Zero Hunger” and EIT Health, we are now taking WeDaVinci to the next level.

## IDP Topics

- **Innovation Analytics: #Data Visualization #Dataviz #Infoviz #D3 #KPIs #Innovation**  
An intuitive and interactive overview on the key innovation KPIs is highly valuable to our customers. It shows the value-add provided by our software. You will think about the best KPIs and the best visualization of such data, evaluating existing libraries. You will design and implement a working solution.
- **Game Module: #Frontend #UX #Game #Gamification #Motivation #Design**  
Design a web-based game module that generates a great user experience and encourages users to engage. Display achievements and rewards, allow for fun interaction. At WeDaVinci, we can provide you with quite some input on game elements and gamification.
- **Additional IDPs: Natural Language Processing and Machine Learning** (ask us)

**Faculty:** TUM Chair for Data Processing (Prof. Dr.-Ing. Diepold), on enquiry additional Chairs may qualify

## Our Offer

- Gain insights into several future-relevant topics at WeDaVinci:  
Data science, Natural Language Processing (NLP), Social Networks, Gamification
- You work on a startup with a great product, based on a modern tech-stack
- We give you lots of responsibility
- Gain insights into the Munich Entrepreneurship scene
- Central Location, high flexibility to coordinate the IDP with your studies
