WeDaVinci is a web-based, NLP-powered collaboration software. We give people a platform for their ideas, to showcase their expertise and motivate them to collaborate on innovative endeavors.

WeDaVinci was supported by EXIST and has been part of the LMU Entrepreneurship Center. After several successful projects, e.g. with the UN World Food Programme Innovation Accelerator on “Zero Hunger” and EIT Health on innovation in healthcare, we are now taking WeDaVinci to the next level.

IDP Topics
- **Real-Time collaboration: #Collaboration #Real-Time #WYSIWYG #UX**
  At WeDaVinci, we motivate users to collaborate on projects, using NLP and ML methods. In this IDP, we want to explore the different features of state-of-the-art HTML editors and platforms which enable for online collaboration and communication. You will evaluate current approaches and features and implement a solution that enables and motivates deferred and real-time collaboration. If interested, within your IDP you can also play around with ML- and NLP-models that enhance communication and the motivation to collaborate.
- **Additional IDPs: NLP&ML, Innovation Management Analytics, Game module** (ask us)

**Faculty:** TUM Chair for Data Processing (Prof. Dr.-Ing. Diepold), on enquiry additional Chairs may qualify

Our Offer
- Gain insights into several future-relevant topics at WeDaVinci: Real-Time collaboration, WYSIWYG, NLP, Social Networks, Gamification
- You work on a startup with a great product, based on a modern tech-stack
- We give you lots of responsibility
- Gain insights into the Munich entrepreneurship scene
- Central location, flexibility to coordinate the IDP with your studies

If this sounds interesting to you, get in touch! Send us your CV and a short description of your motivation to veronika.gamper@wedavinci.com

We look forward to hearing from you!
