

Become part of
 “one of the 10
 most innovative
 startups”
 – Handelsblatt

Are you ready for an exciting challenge?

Join our dream for a more efficient and safe global trade with pharmaceuticals and chemicals. Our B2B market analytics platform empowers buyers and sellers across the world with unique market insights and supports their workflows.

We are looking for excited colleagues interested in having **real-world impact** by driving the **creative mining of distributed databases**, e.g. product lists or public regulatory databases

QYOBO is a tech startup focusing on the **development of cutting-edge big data algorithms und workflow automation** in close collaboration with leading industry players.

Developer/data scientist – You...

- have **experience in gathering data** from public sources and are **familiar with common tools**, e.g. python-scrapy, selenium
- know your way around **git** (ideally in an **agile** team)
- take **pride in your work** and are not afraid of getting your hands dirty
- are a **fantastic team player**, ideally available >20h/week for IDPs / full-time for interns

What we offer

- **IDPs** (individual & team, supervised by ERI) and **full-time internships** with the potential to transition into **working student positions**
- **work on a topic that matters** by contributing to a more transparent & efficient drug supply
- become part of an **inclusive, non-hierarchical team** (and amazing team events)
- work alongside **experienced colleagues** (McKinsey, BMW, Stanford, UC Berkeley) and **benefit from extensive coaching**
- flexible working hours, **free coffee** and frequent Friday's bars/BBQs ;-)

Sounds exciting? Shoot us an email: markus@qyobo.com
