

IDP @ EVENTMATCH

Your digital voucher book

Eventmatch offers you many 2-for-1 deals at Restaurants, Cafés and Bars in your city. Besides, our app allows you to meet up with other people to benefit from the deals together.

Enjoy tasty dishes, save lots of money and make new friends! If that's something you could like, then we are excited to meet you 😊.

Your tasks

- Further development of our existing IOS and Android App.
- Further development of our Backend.
- Implementation of new features like User Profiling and automated reservations at our partner Restaurants.
- Event synchronisation with our Website

What you should bring

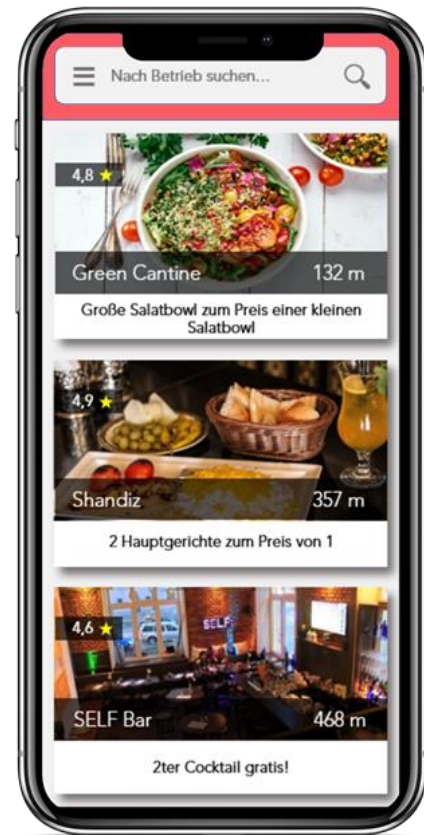

- Experience in App development, ideally you worked already on your own projects.
For that, you bring good skills in at least one of the following areas:
Backend: **Django**; Android: **Kotlin**; IOS: **Swift**; and **Web Development**
- Entrepreneurial thinking, hands-on mentality and experience in agile project management.

Benefits of being part of our team

- Working hands on and close together with the rest of the team. Bring in your own ideas and form our platform.
- Get to know the Munich startup scene on regular events and extend your professional network.
- Regular invitations for dinner at our partner Restaurants.
- Flexible working hours, fresh fruits and cold beer in our office in the Media Lab near Ostbahnhof.
- Possibility to join the team longterm after the IDP.
- You love meeting new people and enjoying free food and drinks?
Then you are perfectly right here, because that's exactly what we do!

The project will be supervised by the TUM Entrepreneurship Research Institute. Besides the project work, you will take lectures like: "Entrepreneurship" and "Technology and Innovation Management: Introduction"

Sounds good? Then send us your CV and write some lines, why YOU would be the perfect match for this job. Team applications are welcome. We're excited about getting to know you!
