

## Are you ready for an exciting challenge?

Being a rapidly growing B2B marketplace and analytics platform our goal is to **revolutionize the raw material market in the pharmaceutical and chemical industry**. Join us on an exciting journey in close cooperation with leading pharmaceutical companies to **make the drug supply safer and more affordable for everyone**.

We're a team of former TUM & LMU students and McKinsey consultants looking for a **machine-learning enthusiast to drive** the development of an **edge-cutting NLP algorithm** analyzing real world text data from various text sources, e.g. company news.

## Machine-learning enthusiast - You...

- have **extended experience in NLP**, ideally **semantic analysis**
- are **interested in developing a fully integrated program** which also gathers new input data building on existing code at QYOBO
- take **pride in your work** and are not afraid of getting your hands dirty
- are a **fantastic team player**, ideally available >20h/week for IDPs / full-time for interns

## What we offer

- **IDPs** (individual & team, supervised by the Entrepreneurship Research Institute)
- **work on a topic that matters** to all of us by contributing to a more transparent, safer and more affordable global drug and chemical supply
- become part of an **inclusive, non-hierarchical team** (and amazing team events)
- work alongside **experienced colleagues** (McKinsey, BMW, Stanford, UC Berkeley) and **benefit from extensive coaching**
- flexible working hours, **free coffee** and frequent Friday's bars/BBQs ;-)

Sounds exciting? Shoot us an email: [markus@qyobo.com](mailto:markus@qyobo.com)
