Examination regulations

- FPSO: Fachprüfungs- und Studienordnung
- APSO: Allgemeine Prüfungs- und Studienordnung

- The FPSO is CSE specific, while the APSO covers all study programs
  → the FPSO is based on the APSO

www.cse.tum.de/regulations
Program duration

- Standard period of study: 4 semesters
- **120 ECTS** credits: 90 ECTS of modules + 30 ECTS Master's thesis

→ approx. **30 ECTS per semester** are expected

- Maximum period of study: 6 semesters
- You can take any courses at any time! But:

<table>

<tr>
<th>By the end of the...</th>
<th>...you must have at least...</th>
</tr>
</thead>
<tbody>
<tr>
<td>3rd semester</td>
<td>30 credits</td>

<tr>
<td>6th semester</td>
<td>120 credits</td>
</tr>
</tbody>
</table>
Courses, Modules, Sections

- The Master’s program consists of different **modules**: lectures, tutorials, labs, seminars, thesis + their respective examinations

- Course registration is not compulsory, but highly recommended
  (register at the beginning of the lecture period)

- Exam registration is compulsory, independently of the type of module!
  (register at the middle/end of the lecture period)

- Labs and Seminars are special modules!
  (register at the end of the previous semester!)

[https://www.in.tum.de/en/current-students/administrative-matters/exams/](https://www.in.tum.de/en/current-students/administrative-matters/exams/)
Calendar

- Final exams usually start right after the last week of lectures
- Repetition exams usually take place at the end of the lecture-free periods
- You have an unlimited* number of attempts to pass an exam

* As long as you stay within the credit limits

Courses, Modules, Sections

- The CSE curriculum is divided into 5 sections (A to E), each of which contains different modules

**Section A** consists of mandatory (10 credits) and elective (at least 10 credits) modules

**Section C** consists of mandatory modules (31 credits)

**Sections B, D, and E** consist of elective modules (at least 49 credits): they include applied mathematics, application areas, and further electives

At least 10 ECTS in A electives and 16 ECTS in B needed

www.cse.tum.de/curriculum/electives
Sections D & E: elective modules

- Section D is subdivided into 6 catalogs (6 each) containing several modules
- You need at least 8 credits in a **single** catalog
- Section E contains further elective courses
- The remaining credits (up to 15) can be distributed across **all** elective categories (including A and B)

Seminar & Practical Course (Lab)

- You must use the (informatics-wide) matching system to get your seminar and your practical course
- The matching takes place at the end of the previous semester
- Find a seminar and a practical course you are interested in
- Check the CSE webpage if the seminar is already accepted for CSE
- If not, ask the coordinators (before the matching is done!)

- Only one seminar and one practical course can be used
- Only the first courses passed are valid - no possibility of improving the grade!

Master's Thesis

- Should ideally be written on the 4th semester and after (mostly) finishing all coursework
- Duration: **6 months** at most
- Can be done at TUM, another university, at one of the partner institutes, or at an external company
- At least one TUM examiner: a Professor (Prof) or Privatdozent (PD) is needed
- If failed, it can be repeated **once**

Recognitions

- Examination results from foreign institutions will, in general, be recognized if the course content is equivalent (learning outcomes are the same).
- In general, no recognitions are possible for elective courses.
- Must be done within the first year.
- The decision is made by the corresponding TUM lecturer.
- Grades are converted to the German system.
