WeDaVinci is a B2B collaboration platform for innovative projects. We use Natural-Language-Processing and ML algorithms to enable people to collaborate, to showcase their expertise and to find collaborators for innovative endeavors.

We support European-wide organizations on their innovation and matchmaking processes, connecting companies, research institutions and universities on trend topics such as innovation in healthcare, urban mobility and digital product development.

IDP Topics
- **Natural Language Processing and Machine Learning:** #NLP #Machine Learning #ML
  At WeDaVinci, we use NLP and ML methods to gain insights on large text datasets. We use classical and the most recent deep learning approaches. You will get your hands dirty, evaluate and design new ML models and explore new application areas.
- **Additional IDPs:** Data Pipeline and handling large datasets (ask us)
  Faculty: TUM Chair for Data Processing (Prof. Dr.-Ing. Diepold), on enquiry additional Chairs may qualify

Our Offer
- Gain insights into several future-relevant topics at WeDaVinci:
  Data science, Natural Language Processing (NLP), Social Networks, Gamification
- You work on a startup with a great product, based on a modern tech-stack
- We give you lots of responsibility
- Central location (currently remote work), flexibility to coordinate the IDP with your studies

If this sounds interesting to you, get in touch! Send us your CV and a short description of your motivation to jobs@wedavinci.com
We look forward to hearing from you!
